

Fountains at Summerfield Condominiums

Volunteer Committees

The Fountains Board of Directors is a volunteer group of homeowners with general knowledge and understanding of the Association daily operations. They have knowledge and understanding about the governmental regulations and ensure that the Fountains complies with those requirements.

The Landscape Committee is dedicated to maintaining the attractiveness and property values of the Fountains. The committee works with landscape contractors to keep our property well maintained. We all take pride in and enjoy the beauty of the Fountains and our goal is to keep it attractive for all to enjoy!

The Neighborhood Watch program has eleven Block Captains who assist in many different ways. The Fountains Neighborhood Watch Committee work closely with the Summerfield Civic Association Neighborhood Watch Committee which is comprised of a chairman, 15 area coordinators and 97 block captains. There are a total of 115 people working toward the goal of keeping all Summerfield safe!

The Maintenance Committee is made up of resident volunteers who oversee various aspects of our Common Property which includes window screens; pest control; water shutoff; back flow testing; gutter and window cleaning; entryway keys, codes, name plates and doorbells; exterior lights; interior entryway lights; and property inspection. Residents who wish to call attention to maintenance issues must do so in writing by either putting it in Box 31 or emailing it to HOA email <fountainshoa.18@gmail.com>.

We encourage homeowners to volunteer!
